Jagger has been missing from the Cromwell Road area of Maidenhead since early January 2019.

He is an 11 year old, all black, neutered male who is micro-chipped. He is normally quite a vocal cat with white whiskers.

We miss him dearly and would be grateful for any information that might help us locate or understand what happened to him.

She said: "From experience, this figure will increase a lot over the next few weeks and we will also be claiming Gift Aid."
